

Thermostatic valve (M770-...)*	Shut-off valve (M767-...)*
<p>1</p> 	<p>Attention: Make sure not to damage the o-ring, which is responsible for the tightness between the radiator and the fitting, when tightening it.</p>
<p>2.a (PEX 16x2)</p> 	<p>Attention: Make sure that during assembly of the 16x2 coupler you do not damage the o-rings responsible for the tightness of the coupler between the installation and the valve.</p>
<p>3</p>  <p>power supply</p>	<p>3</p>  <p>return</p>
<p>4</p>  <p>Attention: Flow regulation in accordance with the Product Data Sheet (www.varioterm.pl/en/technical-support).</p>	<p>4</p>  <p>Attention: Flow regulation in accordance with the Product Data Sheet.</p>
<p>2.b (Rp ½)</p>  <p>Attention: I. Seal threaded connection, then screw in the union with an Allen key. II. Insert the nipple 9n into the valve body and tighten with a 25 wrench.</p>	<p>2.c (Cu 15x1)</p>  <p>Attention: Remove sharp material residues from the outside of the tubing that could damage the O-rings inside the fitting when forcing it onto the tubing. After crimping the coupler with a force of 8Nm first check that it is not possible to turn and / or eject the tube by pulling it STRONGLY, and then proceed to check the hydraulic tightness. Keep 90° angle between the pipe and the heater.</p>

Terms of warranty:

- The manufacturer provides a warranty for a period of 3 years from the date of purchase.
- Defects revealed during the warranty period will be removed free of charge within 14 business days from the date of their notification.
- Notification of a defect or damage is accepted by e-mail: reklamacje@varioterm.pl or by phone (022) 8724214.
- In order to perform a warranty repair, the defective product must be delivered to the VARIO TERM office with a description of the reason complaints and a copy of the proof of purchase with the stamp of the facility where the purchase was made and clearly marked with the date of purchase.
- The warranty does not cover parts that are subject to natural wear and tear during their lifetime, and defects caused as a result installation and use inconsistent with the instructions, defects bearing signs of mechanical or thermal damage or signs of user interference.
- The Purchaser loses all rights resulting from the guarantee in the event of: 1) loss or destruction of the proof of purchase, 2) unauthorized repairs, disassembly, 3) improper or inconsistent with the instructions for use.
